Hi Torrey,

Hope you are well! I'm sure crazy busy like us...

I'm not sure if you are in the planning stages yet with regards to the cable settlement...

we are very interested in helping with cable removal in Tahoe as well as planning and permitting. I guess transport and disposal as well. It's all something we can handle with bringing in a couple subs.

We are very well connected with the local agencies and have can help make the process as smoothly as possible... which in Tahoe can still be rough.

Can you let me know your plans and schedule with this project?

On a separate note. What are your plans with your work building warehouse in Lake Forest? I'm always eyeballing it... we work with Longo next door on some projects.

Thank you very much,

Seth Jones

Monique,

Thank you for sharing these photos. It was my pleasure to spend the day with both you and Seth. I cannot thank you enough for giving me this tour, I appreciate you showing me all that you had found. I cannot lie I was having a "nerd moment" over this old technology.

Seth I will forward you the contact I promised you. If you come across any phone questions do not hesitate to call.

Hi All,

Below are two links for images from our Sunday Adventures! The lightroom link is for quick viewing and easy sharing. The folder link is for downloads of smaller images. Please let me know of any trouble accessing either link as well as if there is a need for larger resolution images. It is incredibly refreshing to have a group of likeminded individuals from various backgrounds working towards a similar goal.

Torrey, it was our pleasure to have you out on the boat and "Indiana Jones" the shoreline!! Please stay in touch and let us know when you want to go out for a non-working adventure!!! Evan, Kirk - we were sorry to miss you on this one, maybe next time!!
